PLEASE DON'T CHANGE UNTIL YOUR BABY IS ADJUSTED! If deciding to switch please blend together gradually over a period of a week to avoid stress on your new little companion.

We also use NuVet immune booster at Fantasy Farms, which provides key nutrients VITAL for optimal health. This boost's immunity during their most vulnerable time. Use it as a "TREAT" - They LOVE it!!! www.nuvet.com/88801 or call 1-800-474-7400 and reference # 88801 to order.

BASICS:

_____ Food and water bowls

_____ Bed

_____ ID tag and collar (typically not needed for the first 6 months of age)

_____ Puppy waste bags - for those walks

_____ Crate or Kennel - Your puppy will grow into 19" to 26" high. Best to purchase a crate with a divider to remove once they grow . This is the best way to potty train and your dog. Not 'cruel' but actually gives your puppy comfort like a 'den' once they adjust to it. They will cry at 1st much like a baby adjusting to a crib.

TRAINING:

- _____ Puppy peed pads - if you plan to train your pup indoors at any time
- _____ Paper towels & spot cleaner (for accidents)
- _____ Teething toys
- _____ Puppy treats
- _____ Good puppy books - Suggestions: How to Behave So Your Dog Behaves By: Sophia Yin, The Dog Listener By: Jan Fennel, How to Raise the Perfect Dog Through Puppyhood and Beyond By: Cesar Millan, The Puppy Primer By: Pat McConnell's

GROOMING:

- _____ Shampoo (I use an Aloe/Oatmeal Please Don't use HUMAN Products Dogs have different PH and human shampoos are irritating)
- _____ Dog brush (I use the furminator or a good slicker brush)
- _____ Nail clipper
- _____ Ear Cleaner
- _____ Dog toothbrush and toothpaste
